

NALLAMURUGAN R

SENIOR ENGINEER – STRUCTURAL DETAILING

+91 8248291002 | Izpadk5@gmail.com | Chennai, India

PROFESSIONAL SUMMARY

Civil Engineering professional with 8+ years of experience in AutoCAD drafting and structural detailing, covering RCC, steel and precast works. Experienced in preparing structural detailing drawings for buildings, railway stations, metro station entry/exit structures, data centres and residential projects. Skilled in AutoCAD, Revit and STAAD Pro, with practical experience in planning, design coordination and execution support.

CORE EXPERTISE

- RCC Structural Detailing – Foundation, Column, Shear Wall, Beam, Slab, Staircase, Ramp, Sump and Overhead Tank
- Steel Detailing and Steel Connection Drawings
- Precast GA Layouts, Sections and Connection Details
- Structural Scheme / GA Drawings and Site Layouts
- Residential Architectural & Structural Drawings
- Planning, Design Coordination and Installation Support
- Solar PV Permit / Structural Layout and Detailing

TECHNICAL SKILLS

Design / Drafting: AutoCAD, STAAD Pro, Revit.

Office: MS Word, MS Excel, MS PowerPoint

Domain: RCC, Steel, Precast Structural Detailing

PROFESSIONAL EXPERIENCE

SENIOR DESIGN ENGINEER – CIVIL | CRESCON PROJECTS AND SERVICES PVT LTD | Aug 2025 – Present

Key Projects

- Saint-Gobain – Chennai
- Danone – Punjab
- Micron Technology's – Gujarat
- STT GDC – Jaipur

Key Responsibilities & Expertise

- Preparation of Structural Shop Drawings for industrial and commercial projects.
- Preparation of drawings for Industrial Buildings and Factory Structures.
- Preparation and detailing of RCC Structures, including foundations and other structural elements.
- Preparation of Steel Structural Drawings and detailing.
- Preparation of Foundation Drawings, including structural foundation details.
- Preparation of Equipment Foundation Drawings as per project requirements.
- Preparation and detailing of Pipe Rack Structures.
- Preparation of GA, layout, plan, elevation, section and detailed construction drawings.
- Preparation of structural shop/fabrication drawings for site execution.
- Coordination with design, engineering, project and site teams for drawing development and revisions.
- Review and incorporation of engineering comments and site requirements.
- Providing technical drawing support and clarifications during project execution.
- Ensuring drawings comply with project specifications, design requirements and client standards.
- Maintaining drawing revisions, drawing registers and document control.
- Delivering drawings within project schedules and required quality standards.

Software Used: AutoCAD

SENIOR ENGINEER – DETAILING | URC CONSTRUCTION PVT LTD | Aug 2023 – Jul 2025

Key Projects

- Critical Care Hospital Block – AIIMS Campus, Bhubaneswar
- Cuttack Railway Station Redevelopment
- Indore Metro Station – 6 Stations / 12 Entry & Exit Structures
- Bhubaneswar Railway Station Redevelopment
- Nxtra Data Centre – Mumbai & Chennai
- Tata Motors – Chennai

Key Responsibilities & Expertise

- Preparation of RCC Detailing Drawings for S+5 building and sub-station building.
- Preparation of Foundation, Column, Beam, Staircase, Slab, Ramp, Sump, Overhead Tank and Head Room detailing drawings.
- Preparation of Railway Station RCC Detailing Drawings for station buildings.
- Preparation of Platform FOB and Air Concourse Escalator/Staircase RCC Foundation and Pedestal Layouts.
- Preparation of GA and RCC Detail Drawings for metro station entry and exit structures.
- Preparation of Steel Detailing and Steel Connection Drawings.
- Preparation of Precast GA Layouts, Sections and Connection Details.
- Preparation of Foundation Layouts, Pedestal Layouts and Base Plate Details.
- Preparation of Steel Composite Column Details and Steel Connection Details for Data Centre projects.
- Coordination of structural detailing requirements for hospital, railway, metro, data centre and industrial projects.

PLANNING & DESIGN ENGINEER | HOME GENIE GROUP OF COMPANIES | Apr 2021 – Jul 2023

- Prepared Vastu-based architectural plans, approval drawings, residential structural drawings, electrical drawings and site layouts.
- Developed design specifications and functional requirements for non-electric sewage treatment plant projects; prepared plant layouts, customized production drawings and installation drawings.
- Supported installation teams during project execution and monitored technical procedures and performance.
- Prepared customized teak wood door estimates and design drawings using AutoCAD and Photoshop; prepared 2D carving patterns and ArtCAM tool paths.
- Prepared roof layout drawings and raw-material quantity calculations for cooling roof tile laying.

SENIOR DRAFTSMAN | MICRODRA DESIGN SOLUTIONS | Jul 2016 – Mar 2020

- Prepared residential rooftop-mounted solar PV permit documentation and drawings.
- Prepared title pages, sheet indexes, governing codes, vicinity/parcel maps, aerial views and project descriptions.
- Prepared PV layouts, attachment spacing, point loads, conduit runs, array dimensions and mounting method details.
- Prepared wiring diagrams, wire/conduit sizing, string/branch circuit sizing, grounding and interconnection details, calculations and system specifications.
- Prepared specification sheets for solar modules, inverters and racking systems.

EDUCATION & CERTIFICATION

B.E. Civil Engineering – 2016 | CGPA: 6.5

KEY STRENGTHS

- Structural detailing accuracy and drawing coordination
- Ability to work under project pressure and deliver required results
- Planning and execution support
- Coordination with design, production and installation teams

DECLARATION

I certify that the information provided above is true and correct to the best of my knowledge.
